FOR IMMEDIATE RELEASE

Mono Cable Railing Project

Mono County – The California Department of Transportation (Caltrans) has scheduled to begin a project to install cable railing at various existing drainage structures throughout Mono County. The purpose of the cable railing is to improve worker and pedestrian safety. Construction will begin next Monday, July 22, 2013.

Drivers should not anticipate any traffic delays but should be aware of roadway shoulder closures and workers along the side of the highway. Construction is expected to be complete by August 2013.

The contractor for this \$116,760 project is FS Construction of Sylmar, CA.

For the safety of the construction crew and motorists, please be attentive to closures, slow for the cone zone, and move over one lane where possible.
