Dear Estimator:

Our California Civil Engineer License is C 54292 and our QSD/QSP certificate number is 00399. We provide professional services only and do not provide construction work in the field therefore we do not possess a contractor license number.

We provide you an economical way to monitor the storm water compliance work on your project site. **We will work with your construction team to perform storm water monitoring tasks.** Here are our quotes for the following items:

Prepare WPCP for the Project.

Item No. 9 – Prepare Water Pollution Control Program - Partial	Estimated fee
Preparing WPCP certified by Qualified SWPPP Developer (QSD) - We will increase the fee by 200% for preparing the WPCP if you don't hire us for the QSD/QSP Bi-weekly Monitoring Services under the Job Site Management.	\$1,100

The WPCP will conform to the Caltrans Standard. The draft WPCP will be submitted electronically to you for review and approval.

The above estimated fee does not include the hardcopies of the WPCP. If you need hardcopies, the printing cost is \$250 per set plus shipping. The hardcopy of the WPCP will be bounded in a ring binder and delivered to you via UPS ground.

The WPCP quote does not include the effort of preparing the Dewatering and Discharge Plan (DDP). It also does not include preparing water pollution control items for aggregate crushing plant or, concrete or asphalt concrete batching plant.

Payment shall be paid in full once the WPCP is approved or conditionally approved by the agency's Engineer for the beginning construction.

Here are remaining quote for the followings bid items:

Total Estimated Fees = \$10,926 (This is an estimated fee for our quoted items. The actual contracted fees might vary from this estimated fee. During the contract period, we will submit the actual executed tasks or hours on our weekly timecard, and send to you for approval before invoicing for payment.)
