George,

In response to your phone request for the availability of 1 acre foot of water for the Cal Trans project in the vicinity of Highway 58 and Buttonwillow, the City of Bakersfield Water resources can provide metered construction water from a fire hydrant within our Fairhaven water system at a rate of \$1.14 per 100 cubic foot.

Contact Brian Bennette of Cal Water @ 661-837-7241 to make the arrangement for setting a construction meter for your use. There will be an application process and deposit requirement.

Thank you,

Steve
