Subject: **ADJUSTMENT TO THE 2006 AERONAUTICS PROGRAM  
RESOLUTION G-07-05, AMENDING RESOLUTION G-06-05**

## **RECOMMENDATION:**

The Department of Transportation (Department) recommends the California Transportation Commission (Commission) approve an adjustment to the 2006 Aeronautics Program to add a runway rehabilitation project at Baker Airport in the county of San Bernardino.

## **ISSUE:**

On April 27, 2006, the Commission approved Resolution G-06-05, adopting the 2006 Aeronautics Program. The Program needs to be adjusted to include a project from the 2002 Aeronautics Program that was inadvertently omitted. The project list for the program has been modified to include the Baker Airport project. The modified list is attached. The sponsor is ready to proceed with the project and is concurrently requesting an allocation under item 2.7a.

## **BACKGROUND:**

Then the 2002 Aeronautics Program was adopted, it included a runway (runway 15/33) rehabilitation project for the Baker Airport. During the fiscal crisis of 2002/2003, all non-safety projects were placed on a pending allocation list. This project was erroneously not included on the pending list, so when the 2006 Aeronautics Program was developed (using the prior pending list), it did not include the Baker Airport project. The sponsor did not realize their project was not in the new program until recently.
